The Biblical Basis for Modern Science

Henry M. Morris

The Biblical Basis for Modern Science Henry M. Morris

For decades, Henry Morris has been known as a defender of the Christian faith. It's an auspicious title for such a humble man, yet no one can deny that the grasp Morris has on science and faith issues is staggering.

In this updated classic, Morris walks the reader through history "real history" by showing the absurdity of evolution. From a wide variety of sciences, including astronomy, biology, chemistry, physics, and geology, Morris presents clear evidence that the Bible gives us an astonishingly accurate record of the past, present, and future.
