If you are like many accounting professionals, you have started to feel it. The tremors that let you know something big is coming. A seismic shift in the accounting profession is under way, and as the ground begins to shake, keeping your footing could become difficult. Just like an earthquake destroys virtually everything in a town, these fundamental shifts could be devastating to many traditional accounting practices if the firm owners fail to act. In this book, we provide insights about how to avoid becoming a casualty, but more importantly, we'll do our best to show you how to create a firm that thrives in the new world. We will talk not just about adding Xero technology to your practice, but also about adding a zero to your profitability.
