You don't need to have or be anything special to be a successful small business owner. In this book, I provide you the simple roadmap you need to start a business that puts \$1,000,000 in your personal bank account--regardless of your location, education, race, gender, or age.

You'll read stories of everyday people from all backgrounds that I've personally interviewed and vetted, from people with graduate degrees to high school dropouts, and from yard guys to corporate professionals. Really, the only thing they all have in common is that they've put \$1,000,000 in the bank (or will shortly).

This is not a get-rich-quick book. These everyday businesses take time and effort to build. As you'll see, it takes at least three years, and sometimes as long as a decade. But it's worth it.

Part I is about how to pick a tried and true business model that you know works, and then how to find the help you need to get started.

Part II is about money: how to find it, how to spend it, and how to save it.

Part III is about the basic sales and marketing skills critical to starting your business.

Lastly, Part IV is about the personal skills critical to maintaining your business. You don't have to stop at \$1,000,000.

You don't have to stop at one business. But this book is where you start.
