This is the first international and inter-disciplinary social science Handbook on health and medicine. Five years in the making, and building on the insights and advice of an international editorial board, the book brings together world-class figures to provide an indispensable, comprehensive resource book on social science, health and medicine.

Pinpointing the focal issues of research and debate in one volume, the material is organized into three sections: social and cultural frameworks of analysis; the experience of health and illness; and health care systems and practices. Each section consists of specially commissioned chapters designed to examine the vital conceptual and methodological practice and policy issues. Readers receive
