Theories of International Politics and Zombies Daniel W. Drezner

What would happen to international politics if the dead rose from the grave and started to eat the living? Daniel Drezner's groundbreaking book answers the question that other international relations scholars have been too scared to ask. Addressing timely issues with analytical bite, Drezner looks at how well-known theories from international relations might be applied to a war with zombies. Exploring the plots of popular zombie films, songs, and books, *Theories of International Politics and Zombies* predicts realistic scenarios for the political stage in the face of a zombie threat and considers how valid--or how rotten--such scenarios might be.

Drezner boldly lurches into the breach and "stress tests" the ways that different approaches to world politics would explain policy responses to the living dead. He examines the most prominent international relations theories--including realism, liberalism, constructivism, neoconservatism, and bureaucratic politics--and decomposes their predictions. He digs into prominent zombie films and novels, such as *Night of the Living Dead* and *World War Z*, to see where essential theories hold up and where they would stumble and fall. Drezner argues that by thinking about outside-of-the-box threats we get a cognitive grip on what former U.S. Secretary of Defense Donald Rumsfeld famously referred to as the "unknown unknowns" in international security.

Correcting the zombie gap in international relations thinking and addressing the genuine but publicly unacknowledged fear of the dead rising from the grave, *Theories of International Politics and Zombies* presents political tactics and strategies accessible enough for any zombie to digest.

The Enjoyable agreement here cannot be questionable, like treasuring beautiful island. So do you still want to miss this? Find this book in addition to read it from now!

Carla Helton:

As a university student exactly feel bored for you to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just minor students that has reading's internal or real their interest. They just do what the professor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever you want.

Likewise word says, ways to reach Chinese's country. So , this Theories of International Politics and Zombies can make you experience more interested to read.
