Ethics of Media

Ethics of Media

Events such as the phone-hacking scandal, Wikileaks and the Mohammed cartoons controversy have placed ethics of media at the centre of current debates. Media are not only centralised institutions, but also technologies and means through which we sustain relationships with each other. We live with and in media, and this book sketches and critiques the normative contours of our intensely mediated worlds. What are the 'ethics' of media? What forms would we expect them to take? Do digital media create new ethical dilemmas and what is our responsibility as spectators/witnesses? Bringing together philosophers and media scholars and drawing on a range of contemporary case studies, the book highlights the diversity of competing answers to the question, 'is there an ethics of media?'
