Learning how to write a good research paper may be one of the most important things you learn in college. If you want to pursue a graduate degree, it's a crucial skill. If you're preparing to enter the professional world, it gives you practice writing, analyzing and structuring arguments which can help you from the first cover letter you write, and throughout your career. At the very least, it'll help you get better grades less painfully. And yet it can be one of the most difficult skills to learn, and far, far too many students find essays and papers to be their most frustrating assignments.

It shouldn't be that way. By understanding the basics of essays and research papers, like outline, format and how to research efficiently, you can drastically cut down the time and effort of these assignments. It's not about cutting corners, it's about cutting out unnecessary work while helping you do the important things better.

In short, it's about working efficiently and practically.

That's exactly what this book is about. Whether you've procrastinated and are looking for some tips on how to write faster, or you're just trying to beef up your skills so you can write papers and essay tests better, I wrote this to help you write better essays faster, with less stress and a focus on both quality and speed.

What will you learn?

- An academic paper is an argument, and why this matters
- Outline template
- How to use an outline to guide your research
