Lilienfeld's Foundations of Epidemiology

Dona Schneider, David E. Lilienfeld

Lilienfeld's Foundations of Epidemiology Dona Schneider, David E. Lilienfeld

Two decades after the third edition of *Lilienfeld's Foundations of Epidemiology* advanced the teaching of epidemiology, this completely revised fourth edition offers a new and innovative approach for future generations of students in population health.

Authored by two longtime educators in epidemiology, this all-new *Foundations* frames the field's fundamental concepts within a mix of classic examples and recent case studies, as well the inclusion of recently developed measures now finding commonplace usage in the field. The result is a comprehensive introduction to modern epidemiology accessible to readers of all backgrounds and interests.

Features in this new *Foundations* include:

- Coverage of all the fundamentals of epidemiology, including measuring health status, characteristics of outbreaks, design and construct of epidemiologic studies
- Exercises to check understanding
- Chapters devoted to clinical epidemiology, fieldwork, evidence-based medicine, and evidence-based public health contextualize epidemiology and its place in medicine and society

Devoid of the digressions and inaccessibility that characterize many other introductory epidemiology texts, this new *Foundations of Epidemiology* will inform thinking and learning in the population sciences for decades to come. It is affordable, comprehensive, and enjoyable to read, one not likely to sit on the shelf collecting dust but to be consulted over time as one would when seeking guidance from a wise friend or mentor.
