Norse Romance II: The Knights of the Round Table (Arthurian Archives)

The Knights of the Round Table is devoted to translations and adaptations of French narratives featuring King Arthur's knights. It contains prose translations of three of Chretien de Troyes's Arthurian romances, including a translation of Perceval. Erex saga diverges considerably in content and structure from the French source and most likely represents a thorough revision by an Icelander of what was originally a Norwegian translation. Additionally, the volume contains both an Old Norse translation and an Icelandic adaptation of the French Lai du cort mantel, the ribald story of a chastity-testing mantle at King Arthur's court.
