The SAGE Handbook of Identities

The SAGE Handbook of Identities

Identity research is at the heart of many trans-disciplinary research centers around the world. No single social science discipline 'owns' identity research and **The SAGE Handbook of Identities** draws on a global scholarship to cover in four parts its:

Frameworks: presents the main theoretical and methodological perspectives in identities research.

Formations: covers the major formative forces for identities such as culture, globalization, migratory patterns, biology and so on.

Categories: reviews research on the core social categories which are central to identity such as ethnicity, gender, sexuality, disability and social class and intersections between these.

Sites and Context: develops a series of case studies of crucial sites and contexts where identity is at stake such as social movements, relationships and family life, work-places and environments and citizenship.
