Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology)

A. K. Haghi, Sabu Thomas, Moein MehdiPour MirMahaleh

Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) A. K. Haghi, Sabu Thomas, Moein MehdiPour MirMahaleh

This volume covers a wide range of adsorption activities of porous carbon (PC), CNTs, and carbon nano structures that have been employed so far for the removal of various pollutants from water, wastewater, and organic compounds. The low cost, high efficiency, simplicity, and ease in the upscaling of adsorption processes using PC make the adsorption technique attractive for the removal and recovery of organic compounds. The activated carbon modification process has also been of interest to overcome some of the limitations of the adsorbents.

Due to a large specific surface area, and small, hollow, and layered structures, CNTs and carbon nano structures have been investigated as promising adsorbents for various metal ions. Inorganic and organic pollutants can be easily modified by chemical treatment to increase their adsorption capacity. There is the huge hope that nanotubes applications will lead to a cleaner and healthier environment. A brief summary of these modeling methods is reviewed in this volume.

Also, two important simulation methods, the Monte Carlo and the Molecular Dynamic, are included in this volume. The presence of micro and mesopores is essential for many researchers aiming to control micro or mesoporosity. The present volume attempts to give a general view of the recent activities on the study of pore structure control, with application novel simulation and modeling methods and the necessity and importance of this controlling. This volume also provides a brief overview of the methodology and modeling beside simulation methods for characterization of nanoporous carbons by using adsorption isotherm parameters.

From reader reviews:

Hazel Polk:

Why don't make it to become your habit? Right now, try to ready your time to do the important behave, like looking for your favorite publication and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology). Try to make book Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) as your friend. It means that it can being your friend when you truly feel alone and beside regarding course make you smarter than before. Yeah, it is very fortunated to suit your needs. The book makes you much more confidence because you can know everything by the book. So , we should make new experience and knowledge with this book.

John Carter:

What do you in relation to book? It is not important along with you? Or just adding material when you need something to explain what yours problem? How about your spare time? Or are you busy man? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Everybody has many questions above. They must answer that question since just their can do in which. It said that about book. Book is familiar on every person. Yes, it is suitable. Because start from on guardería until university need this Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) to read.

Ruth Barr:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Make an effort to pick one book that you never know the inside because don't assess book by its deal with may doesn't work is difficult job because you are afraid that the inside maybe not as fantastic as in the outside look likes. Maybe you answer may be Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) why because the excellent cover that make you consider about the content will not disappoint you actually. The inside or content is actually fantastic as the outside as well as cover. Your reading 6th sense will directly show you to pick up this book.

Sean Lee:

This Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) is

completely new way for you who has attention to look for some information since it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know or perhaps you who still having small amount of digest in reading this Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) can be the light food for yourself because the information inside that book is easy to get by anyone. These books produce itself in the form that is reachable by anyone, yeah I mean in the e-book contact form. People who think that in e-book form make them feel tired even dizzy this publication is the answer. So you cannot find any in reading a e-book especially this one. You can find actually looking for. It should be here for you. So , don't miss it! Just read this e-book sort for your better life and knowledge.

Download and Read Online Foundations of Nanotechnology - Three Volume Set: Foundations of Nanotechnology, Volume One: Pore Size in Carbon-Based Nano-Adsorbents (AAP Research Notes on Nanoscience and Nanotechnology) A. K. Haghi, Sabu Thomas, Moein MehdiPour MirMahaleh #V8JGCDXRITM
