## Zeolite Characterization and Catalysis: A Tutorial

The idea for putting together a tutorial on zeolites came originally from my co-editor, Eric Derouane, about 5 years ago. I first met Eric in the mid-1980s when he spent 2 years working for Mobil R&D at our then Corporate lab at Princeton, NJ. He was on the senior technical staff with projects in the synthesis and characterization of new materials. At that time, I managed a group at our Paulsboro lab that was responsible for catalyst characterization in support of our catalyst and process development efforts, and also had a substantial group working on new material synthesis. Hence, our interests overlapped considerably and we met regularly. After Eric moved back to Namur (initially), we maintained contact, and in the 1990s, we met a number of times in Europe on projects of joint interest. It was after I retired from ExxonMobil in 2002 that we began to discuss the tutorial concept seriously. Eric had (semi-)retired and lived on the Algarve, the southern coast of Portugal. In January 2003, my wife and I spent 3 weeks outside of Lagos, and I worked parts of most days with Eric on the proposed content of the book. We decided on a comprehensive approach that ultimately amounted to some 20+ chapters covering all of zeolite chemistry and catalysis and gave it the title Zeolite Chemistry and Catalysis: An integrated Approach and Tutorial.

### **From reader reviews:**

#### **Michael Cooke:**

The book Zeolite Characterization and Catalysis: A Tutorial has a lot associated with on it. So when you make sure to read this book you can get a lot of gain. The book was authored by the very famous author. The writer makes some research prior to write this book. That book very easy to read you may get the point easily after reading this book.

#### **Mike Yerkes:**

Do you have something that you enjoy such as book? The book lovers usually prefer to select book like comic, quick story and the biggest the first is novel. Now, why not seeking Zeolite Characterization and Catalysis: A Tutorial that give your enjoyment preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the opportunity for people to know world much better then how they react when it comes to the world. It can't be explained constantly that reading habit only for the geeky man but for all of you who wants to be success person. So , for all of you who want to start reading through as your good habit, you may pick Zeolite Characterization and Catalysis: A Tutorial become your own starter.

#### **Ana Worcester:**

You can spend your free time you just read this book this guide. This Zeolite Characterization and Catalysis: A Tutorial is simple to bring you can read it in the recreation area, in the beach, train in addition to soon. If you did not have much space to bring the particular printed book, you can buy typically the e-book. It is make you better to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

#### **Paul Kennedy:**

A lot of publication has printed but it is different. You can get it by online on social media. You can choose the most beneficial book for you, science, witty, novel, or whatever through searching from it. It is named of book Zeolite Characterization and Catalysis: A Tutorial. You can contribute your knowledge by it. Without making the printed book, it might add your knowledge and make anyone happier to read. It is most crucial that, you must aware about book. It can bring you from one destination to other place.
