I bought All About Sharks first and my son just loved it so started buying all the books in the series. Everyone of them has been great but his favorites are the shark book and this one about whales. He talks to everyone we meet now and tells them everything he has learned in this book about Orca Whales and the Blue Whale. Great books for kids who are interested in animals.

Okay, this might sound funny but I actually bought this one for myself! Yes, even adults love to learn about their favourite animals too you know! Do you know the movie FREE WILLY? Well, that's when I started to love whales.. they all look so cute and friendly you wanna ride them all day. Haha! Up until now I am still fascinated every time I learn a thing or two with whales and I just want to thank the author for doing such a great job promoting books about animals.
