**HUNTED IN THE WOODS;; Sometimes predators are humans or animal; and sometimes they are not....Something in the Woods is Taking People...Terrifying True Accounts.** Stephen Young  
Something in the Woods is Hunting Humans; Stalked as Prey and snatched without warning...Taken silently, or with blood-curdling screams, never to be seen again.... Or found, in the most horrible of circumstances.... This book looks at documented true cases, and the evidence uncovered is shocking and disturbing; the causes are terrifying and horrific. We are being HUNTED.....

Excerpts; 'Blood-curdling screams could be heard from the woods nearby. It was a woman's voice screaming, "Oh God, please somebody help me, Oh God, No!"'

'His clothes were strewn 50 yards from his body. His heavy work boots and his trousers were no longer on his body. His watch was found further away by the stream.'

"Three months later, their bodies were found in a copse. Great mystery surrounds their deaths. A press blackout ensued. The families were told not to speak with anyone."

'Neither he nor his equipment were ever found, and there were several members of the search party who reported that while they were searching they had the unnerving sensation that they were being watched all the time they were there.'

'A man living in a house next to the field called 911. He said he could hear a woman screaming. He told said he'd gone into the field with his spotlight but couldn't see anyone in the field or woods. "It sounded like somebody being hurt; it sounded like somebody being ripped apart."

'It seemed human-like in form; athletic, ready, aggressive and focussed. I didn't see any eyes, yet I could tell it was staring right at me and we were like two animals in the wild in a stand off, guarding our terrain.'

'He tells them he's in the woods. In his 911 call he says, "I got chased into the woods. Please hurry; help!"'

'Two disfigured entities burst out of the darkness at them. One he described as looking like a 'goat, which dragged itself on four legs.' The other was a naked man.'

"The figures seemed to be holding branches on fire. There were four of them....Later that night one of the group who lived on a farm, said that after the figures vanished, they could hear sounds like in an abattoir; of cries and squeals."

'They existed for the sole purpose of hunting people.'

"It was a howl. I raised my voice at him to try to get him to snap out of it. Then suddenly there was silence. There was a total silence."

'The man, who was embedded in fern, was still alive and lifted up his left hand on the approach of the

searchers as if asking them to hasten to his aid. His skull was fractured, and his eyes, face, and that part of his body in contact with the ground had been devoured.'

This book deals with unexplained mysteries in the wilderness;  
The wilderness is sometimes a dangerous place; and hiking there can come with an unexpected price, and sometimes that price can be very high. Something in the Woods is Hunting people.....
